Notes

1. The above results have been reviewed by the Audit Committee and approved by the Board of Directors of the company in its Meeting held on 12th May 2014 and have been audited by the Statutory Auditors of the company.

2. Information on Investor's complaints pursuant to Listing Agreement for the year ended 31st March 2014:

	Opening Balance	Additions	Disposals	Closing Balance
No. of complaints	2	1127	1123	6

3. (i) Auditors observations on accounts for the year ended 31st March 2014 which has an impact on Statement of Profit & Loss is as under:-
 (a) As per Accounting Standard-11 (AS-11) i.e. The effects of changes in Foreign Exchange Rates, foreign currency loan taken (to the extent hedged) and outstanding forward exchange contracts should be restated at the exchange rates prevailing at the reporting date and differences should be taken to statement of profit and loss whereas the company has restated the above loans at the date of inception of the forward contract and difference taken to statement of profit and loss as stated in Accounting Policy. In view of the above, loan liability and foreign currency receivable account as on 31st March 2014 would have been higher by ₹ 1,36,602.17 lac (higher by ₹ 70,689.36 lac as on 31st March, 2013). However, there would be no impact on the profit for the half year as loss on account of increase in foreign currency borrowings due to adverse fluctuation in foreign currency exchange rate is fully offset due to gain on principal amount of borrowings hedged by the company.

(b) The Mark to Market (M2M) gain on composite contracts (Interest Rate Swaps cum forward exchange contracts) as on 31st March 2014 amounts to ₹ 1,36,602.17 lac and the net M2M loss/gain relating to interest rate swaps cannot be computed separately. As per the announcement issued by the Institute of Chartered Accountants of India regarding 'Accounting for Derivatives', keeping in view the principle of prudence as enunciated in AS 1, 'Disclosure of Accounting Policies', the entity is required to provide for losses in respect of all outstanding derivative contracts at the balance sheet date by marking them to market except in respect of 'Forward Contracts' which are to be accounted for in accordance with the provisions of AS-11, 'The Effects of Changes in Foreign Exchange Rates'. In our opinion, the company has not ascertained and provided for such mark to market loss, if any, on these outstanding derivative contracts, i.e. Interest Rate Swaps.

(c) Some of the balances shown under Infrastructure loans, borrowings and various other debit and credit balances as on March 31, 2014 are subject to confirmation. The impact on the company's accounts on confirmation of these balances, on reconciliation of the differences between balances as per books of account of the company and balances confirmed by the company and also on account of pending resetting of interest rates in some of the cases is not ascertainable at this stage.

(ii) Management explanation to the above is as under:-

(a) & (b) The company has undertaken composite contracts i.e. Interest Rate Swap cum forward exchange contracts to hedge risks relating to floating interest rates as well as foreign exchange fluctuations on foreign currency borrowings of ₹ 5,14,446.93 lac as on 31st March 2014. As per the Mark-to-Market (M2M) valuations furnished by the counter party banks and other valuer on the above composite contracts, the net M2M gain as on 31st March 2014 amounts to ₹ 1,36,602.17 lac (Gross gain of ₹ 1,38,447.96 lac less Gross loss ₹ 1,845.79 lac) and M2M gain as on 31st March 2013 amounts to ₹ 70,689.36 lac (Gross gain of ₹ 70,689.36 lac less Gross loss Nil). The M2M losses on Interest Rate Swaps (IRS) is not being accounted for in the books of accounts as the underlying liability designated with swap is also not carried at lower of cost or market value in the financial statements and the M2M loss relating only to IRS cannot be computed separately and provided for as required by the announcement of ICAI on 'Accounting for Derivatives' as the company had entered into composite contracts for hedging and the interest payable to counter-parties also includes amount of premium, if any, which has not been mentioned/ identified separately in the composite contracts.

During the financial year ended 31st March 2012, the company has also sought the opinion of Expert Advisory Committee of the Institute of Chartered accountant of India to advice on the correct accounting treatment to be followed by the company in this regard which is awaited.

(c) In the opinion of management, no material impact of such balance confirmation and reconciliation and resetting of interest rate in some cases on financial results is anticipated.

4. Exceptional item for the year ended 31st March 2013 represents dividend income received from subsidiary company amounting to ₹ 16,627.50 Lac.

5. The Company's main business is to provide finance for Infrastructure Projects and the company does not have more than one reportable segment in terms of Accounting Standard 17 issued by the Institute of Chartered Accountants of India.

6. Return on Assets has been calculated by dividing Profit after Tax by Average Assets (Average Assets is simple average of Opening & Closing Balance of Total Assets)

7. Previous period's figures have been regrouped/reclassified wherever necessary.

8. The Audited result for the year ended 31.03.2014 are subject to review by the Comptroller and Auditor General of India u/s 619(4) of the Companies Act, 1956.
